

Sexual Violence Resource Card

The Sexual Violence Police Advisory Committee (SVPAC) is pleased to announce an update to the [Sexual Violence Resource Card](#). The resource card now includes the new province wide sexual violence support service – the *One Line: 1-866-403-8000* administered by the Association of Alberta Sexual Assault Services (AASAS). The SVPAC, chaired by Justice and Solicitor General, provides a forum for collaboration on issues surrounding sexual violence and facilitates knowledge exchange between law enforcement, subject matter experts and Government.

The Sexual Violence Resource Card was developed to create a consistent law enforcement response throughout the province. The resource card directly references victim services, including various supports provided by victim services. The cards will be given to victims by law enforcement during an investigation to aid in providing information and connecting victims with appropriate community agencies, support and resources, including victim services. Law enforcement will continue to be the sole distributors of this card.
